Objective

To contribute as a Web Developer by building responsive, user-friendly, and efficient web applications using modern technologies. Eager to apply my skills in full-stack development and UI/UX design to create scalable digital solutions that deliver a smooth user experience.

Skills

- Angular
- HTML & CSS
- JavaScript & TypeScript
- Bootstrap
- Node.js & Express.js
- Mongodb
- Git

Education

Nehru Memorial College, MCA - Master of Computer Application 2023 – 2025
- CGPA: 7.48 (3rd sem)
- Puthanampatti, Tamil Nadu 621007

Arignar Anna Government Arts College, B.sc. - Bachelor of Computer Science 2020 – 2023
- CGPA: 8.33
- Musiri, Tamil Nadu 621213

Experience

Web Development Intern
POBO Technologies, Trichy – MEAN Stack Developer October 2024 – April 2025
- Developed a **'Food Ordering and Management System'** – Web Application using the MEAN stack (MongoDB, Express.js, Angular, Node.js) as part of a six-month internship.
- Designed and implemented responsive, user-friendly interfaces with a focus on UI/UX principles.
- Created dynamic front-end components using Angular and integrated RESTful APIs with Express.js and Node.js.
- Managed data storage and retrieval using MongoDB for seamless order and user management.
- Gained practical experience in full-stack web development and collaborative software projects.

POBO Technologies, Trichy – UI & UX Developer May 2024 – June 2024
- Gained hands-on experience in building responsive web interfaces that follow clean UI/UX standards.
- Contributed to the design process, ensuring user-focused navigation, layout consistency, and performance optimization.

Projects
- **Car Wash & Appointment Website** – Designed a responsive website template for booking car wash services.
- **Portfolio Website** – Created a personal portfolio template showcasing profile, skills, and work.
- **Photography Website** – Developed a visually rich template tailored for showcasing photography collections and galleries.
- **E-commerce Website** – Built a static e-commerce site layout including product listings, cart UI, and responsive design.

Environment: HTML 5, CSS3, Bootstrap, TypeScript and Angular
